Education Issue 16

May 2012

“Wisdom is radiant and unfading, and she is easily discerned by those who love her, and is found by those who seek her”. Wisdom 6: 12

“In one salutation to thee, my God, let all my senses spread out and touch this world at thy feet. Let all my songs gather together their diverse strains into a single current and flow to a sea of silence in one salutation to thee”. - Rabindranath Tagore -

Editorial

Dear Friends,

“Know thyself and you will know the secrets of the universe and the Gods”

Every human being needs to carve out the time to articulate a philosophy for his or her life. We are people of information, we are not only to be informative but need to be transformative. To live truly and greatly, we need to define the way of living so as to transfer the value and discipline in the lives of our students.

Only human beings, endowed as they are with consciousness, are able to control their movements and give them meaning. So each gesture we make and each word we say can have a resonance on the spiritual plane. Gestures and spoken words always have magical power; through them we set up invisible currents, which contribute to the creation of matter. So we have the magical power to awake the consciousness of our staff and students.

In the history of humanity there has been no lack of exceptional people who have been an example to others on account of their integrity, goodness, courage or wisdom. But perfection is another matter. Perfection in humans ideally implies the development of the three factors of mind, heart and will, and this is very rare. You meet people who are remarkably intelligent and educated but with no love for others, or others who are full of love but have no willpower, and so on and so forth. So our duty is to prepare our student community to be equipped with the above qualities and help them to live the life fully and live in the present.

An attitude is a predisposition to act or feel a certain way towards a person or thing. Attitude stability depends up on how closely it's linked with other attitudes, knowledge - cognitive aspect, degree of liking/disliking - affective aspect. Attitudes can be formed to preserve balance in our self image. Hence our duty is to create an atmosphere to feel good in everything with affective nature of living in our campus. We are in a position to change the behavioral tendency among the students and the Cognitive power along with knowledge and technology. Value expression and principle based life should reflect in the lives of every one of us so as to transmit love, peace, joy and justice.

Be thoughtful about life. Authenticity will help to design the standard of excellence in living. First and foremost love of parents, family and country should be the prime duty. Choose to be extraordinary. Creating remarkable relationship with everyone is our immediate task. Overcoming the adversity and disappointments should be our daily assignment.

M. K.TERESA. DMI

St. Joseph College of Engineering and Technology

Education is the process of driving a set of prejudices down your throats. ~Martin H. Fischer

DMI- ST.EUGENE UNIVERSITY, CHIPATA, ZAMBIA

We started our academic calendar by 30th April 2012 after the orientation classes. As per the schedule classes are going on well. In Our administration team, we are two sisters and two fathers working.

Administration Team

The Staff in the campus:

The only person who is educated is the one who has learned how to learn and change. ~Carl Rogers

Mrs.JERE, the Education Minister visited our college and gave the motivation talk to all the students. It impressed all the students very much.

- We conducted the CAT-I examination from 21st April 2012 to 26th April 2012
- We have initiated the sports activities and formed the team for various games like football, volley Ball and etc...
- The total strength of the college now is 87 including degree and diploma.

The secret of education is respecting the pupil.

I promise myself

To be so strong that nothing can disturb my peace of mind.

To talk health, happiness, and prosperity to every person I meet.

To make all my friends feel that there is something worthwhile in them.

To look at the sunny side of everything and make my optimism come true.

To think only of the best, to work only for the best
and to expect only the best.

To be just as enthusiastic about the success of
others as I am about my own.

To forget the mistakes of the past and press on to the
greater achievements of the future.

To wear a cheerful expression at all times and give a smile
to every living creature I meet.

To give so much time to improving myself that I
have no time to criticize others.

To be too large for worry, too noble for anger, too strong for fear,
and too happy to permit the presence of trouble.

To think well of myself and to proclaim this fact to the world,
not in loud words, but in great deeds.

To live in the faith that the whole world is on my side,
so long as I am true to the best that is in me.

CHRISTIAN D. LARSON
